**Response to Request for Additional Information Re: Response to NRC Guidance
Regarding Mitigation Strategies**

Nuclear Management Company, LLC (NMC) submitted a response to NRC Guidance Regarding Mitigation Strategies for the Monticello Nuclear Generating Plant (MNGP) on May 25, 2005.

On August 10, 2005, the Nuclear Regulatory Commission (NRC) sent, via electronic mail, a request for additional information (RAI) related to the MNGP submittal. The electronic request required that a teleconference be scheduled to discuss the RAI questions. A verbally communicated due date of 30 days was requested by NRC Staff. Subsequently, Edward J. Weinkam, NMC, received approval from Robert Gramm and Michael Webb, NRC, to submit NMC responses to the RAI within 45 days from the date of the teleconferences for each NMC site.

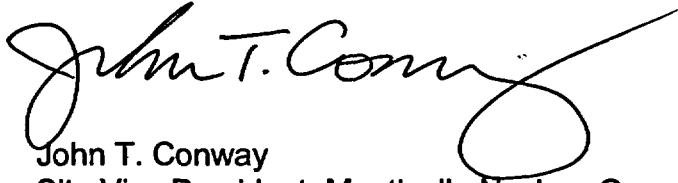

The MNGP teleconference was held on August 29, 2005. It was agreed between NMC and NRC Staff that the MNGP submittal would be due on October 13, 2005. Enclosed is the MNGP response.
