SUBJECT: INSPECTION 03032029/2005001, S&M TESTING LABORATORY

Dear Ms. O'Neill:

This letter refers to your September 20, 2005, correspondence, in response to our July 8, 2005, letter. We understand from your response that you have implemented necessary procedures to ensure that your nuclear gauges are stored in accordance with the requirements specified in Condition 17 of your license and in 10 CFR 30.34(i). Please let this office know in writing if our understanding is in error.

Thank you for informing us of the corrective and preventive actions documented in your letter and confirming that you do not use damaged containers for transporting nuclear gauges to job sites, and that you do not permit untrained individuals to use nuclear gauges. These actions will be examined during a future inspection of your licensed program

Your cooperation with us is appreciated.

Sincerely,
