10. Radiation Safety Program -			
Audit Program:	A Radiation Safety - Audit Program is performed by the RSO annually. The portable gauge audit checklist (Appendix F of NUREG-1556, Vol. 1, Rev. 1) is used as a template to insure thoroughness. Records of the annual audits are kept on file indefinitely.		
Termination of Activities:	We understand that Section 8.10.2 of NUREG-1556 (Vol.1, Rev. 1) will serve as guidelines, if and when we decide to terminate our use of the regulated materials. NRC Form 314 will be submitted at such time.		
Survey Instruments:	In the event of an incident, we will have access to a NUREG-1556, Vol. 1, Rev. 1 compliant radiation survey meter.	Yes	n/a
Material Receipt and Accountability:	Physical inventory of our gauges is taken on a regular basis, in excess of the semi-annual requirement.	Yes	n/a
Occupational Dosimetry:	We maintain, for inspection by the NRC, documentation demonstrating that unmonitored individuals are not likely to receive a radiation dose in excess of 10 percent of the allowable limits in 10 CFR Part 20.	Yes	n/a
Public Dose:	All gauges in use are under constant watch by a certified gauge user and/or are stored and transported in such a way as to prevent exposure to the public exceeding the NRC maximum stated dose as determined by calculation method.		
Operating and Emergency Procedures:	All gauge users have been instructed on operating and emergency procedures. Additionally, at least one copy of emergency procedures, like those in Appendix H of NUREG-1556, Vol. 1, Rev. 1, are with the gauge operator at all times.	Yes	n/a
Leak Testing:	Troxler Electronic Laboratories supplies the RSO with leak test "swipe" kits used to collect samples on a semi-annual basis which are then returned for analysis. Troxler reports the test results to us which then remain on file indefinitely.	Yes	n/a
Program maintenance:	All gauges are maintained as per the manufacturer's (Troxler Electronic Laboratories) instructions. Should maintenance or repairs require the source rod to be removed, the unit will be shipped to an NRC approved facility for the task.	Yes	n/a
		Yes	n/a
Transportation:	Our gauge transportation procedures are reviewed by a representative of the NRC during inspections of our facilities.		
11. Waste Management - Gauge Disposal and Transfer:			
	Unwanted gauges are accepted by, and will be returned to the manufacturer, Troxler Electronic Laboratories.
