Ms. Nancy B. Parr, Licensing Project Manager
Westinghouse Electric Company
Nuclear Fuel
Columbia Fuel Site
P.O. Drawer R
Columbia, SC 29250

SUBJECT: ACCEPTANCE OF WESTINGHOUSE LICENSE RENEWAL APPLICATION
AND NOTICE OF TIMELY RENEWAL STATUS (TAC 31911)

Dear Ms. Parr:

We have received your application for renewal of license SNM-1107 transmitted by letters dated September 29, 2005, and October 5, 2005. Your submittal has been assigned TAC No. L31911. Please refer to this number in any future correspondence associated with this request.

We have completed our acceptance review of the renewal application, and have identified no administrative omissions or deficiencies. The renewal application has been accepted for formal review. Please note that the complete technical review may identify omissions in the submittal information or technical issues which require additional information. Because you filed the application for renewal not less than 30 days before the expiration date stated in your existing license, your existing license will not expire until the Commission makes a final determination on the renewal application, in accordance with the timely renewal provision of 10 CFR 70.38(a)(1).

Based on our acceptance review and projection of current review schedules, we anticipate completing the technical review by August 2006. This date could change depending on the findings of our technical review, urgent assignments, or other factors. We will promptly communicate any significant changes to this schedule.

In addition, a copy of your submittal has been forwarded to the License Fee and Accounts Receivable Branch, Office of the Chief Financial Officer, who will contact you separately for billing, as your request is subject to full cost fee recovery.

If you have any questions regarding this letter, please free to contact me at (301) 415-7249 or via e-mail to MTA@nrc.gov.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publically Available Records (PARS) component of the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at <http://www.nrc.gov/reading-rm/adams.html>

Sincerely,

/RA/

Mary T. Adams, Senior Project Manager
Fuel Cycle Facilities Branch
Division of Fuel Cycle Safety
and Safeguards
Office of Nuclear Material Safety
and Safeguards

Docket No.: 70-1151
License No.: SNM-1107
