PROJECT MANAGER ASSIGNMENT

Dear Mr. Singer:

The Office of Nuclear Reactor Regulation (NRR) has been reorganized to support anticipated new-reactor licensing, risk-informed regulation, and generally improve the effectiveness and efficiency of NRR's programs and processes. The new organization became effective October 31, 2005.

The five divisions have been expanded to nine smaller divisions. Each division will be headed by a director and one or two deputy directors. The Division of Licensing Project Management (DLPM) has been designated as the Division of Operating Reactor Licensing (DORL) and will focus, primarily, on licensing activities. The director of DORL is Catherine Haney. Her deputy directors are Edwin M. Hackett and Cornelius F. Holden. Generic and programmatic issues will be managed by the Division of Policy and Rulemaking. In the new DORL, the current first-line supervisors, Section Chiefs, have been redesignated as Branch Chiefs.

There are no changes to the Project Manager (PM) assignments for your facilities. Douglas V. Pickett will continue to be the PM for Watts Bar and Sequoyah. Margaret H. Chernoff will continue to be the PM for Bellefonte and Browns Ferry, Unit 1, and associated recovery activities. Eva A. Brown will continue to be the PM for Browns Ferry, Units 2 and 3. Mr. Pickett may be contacted at (301) 415-1364 or via email at DVP1@NRC.gov. Ms. Chernoff may be contacted at (301) 415-4041 or via email at MHC@NRC.gov. Ms. Brown may be contacted at (301) 415-2315 or via email at EAB1@NRC.gov. I will continue as Branch Chief for the nuclear plants listed above. I may be contacted at (301) 415-2734 or via email at MXM2@NRC.gov.

Sincerely,

/RA/
