SUBJECT: BRUNSWICK STEAM ELECTRIC PLANT, UNITS 1 AND 2
PROJECT MANAGER ASSIGNMENT

Dear Mr. Gannon:

The Office of Nuclear Reactor Regulation (NRR) is being reorganized to support anticipated new-reactor licensing, risk-informed regulation, and generally improve the effectiveness and efficiency of NRR's programs and processes. The new organization will become effective on October 31, 2005.

The five existing divisions will be expanded to nine smaller divisions. Each division will be headed by a director and one or two deputy directors. The current Division of Licensing Project Management (DLPM) will be designated as the Division of Operating Reactor Licensing (DORL) and will focus, primarily, on licensing activities. The director of DORL will be Catherine Haney. Her deputy directors will be Edwin M. Hackett and Cornelius F. Holden. Generic and programmatic issues will be managed by the Division of Policy and Rulemaking. In the new DORL, the current first-line supervisors, section chiefs, will be redesignated as branch chiefs.

There are no changes to the project manager assignments for your facilities. Brenda L. Mozafari and Michael L. Marshall continue to be the project manager and branch chief, respectively. Ms. Mozafari may be contacted at (301) 415-2020 or via email at BLM@NRC.gov. Mr. Marshall may be contacted at (301) 415-2734 or via email at MXM2@NRC.gov.

Sincerely,

/RA/

Michael L. Marshall Jr., Section Chief
