Response to Request for Additional Information Re: Response to NRC Guidance Regarding Mitigation Strategies

Nuclear Management Company, LLC (NMC) submitted a response to NRC Guidance Regarding Mitigation Strategies for the Prairie Island Nuclear Generating Plant (PINGP) on May 25, 2005.

On August 22, 2005, the Nuclear Regulatory Commission (NRC) sent, via electronic mail, a request for additional information (RAI) related to the PINGP submittal. The electronic request required that a teleconference be scheduled to discuss the RAI questions. A verbally communicated due date of 30 days was requested by NRC Staff. Subsequently, Edward J. Weinkam, NMC, received approval from Robert Gramm and Michael Webb, NRC, to submit NMC responses to the RAI within 45 days from the date of the teleconferences for each NMC site.

The PINGP teleconference was conducted on September 9, 2005. Enclosed is the PINGP response.
