SUBJECT: ACCEPTANCE FOR REVIEW OF GLOBAL NUCLEAR FUEL - AMERICAS, LLC
(GNF-A) TOPICAL REPORT NEDE-33214P, "DENSIFICATION TESTING"
(TAC NO. MC8679)

Dear Ms. Harding:

By letter dated October 3, 2005, GNF-A submitted for U.S. Nuclear Regulatory Commission (NRC) staff review Topical Report (TR) NEDE-33214P, "Densification Testing." The NRC staff has performed an acceptance review of TR NEDE-33214P. We have found that the material presented is sufficient to begin our comprehensive review. The NRC staff expects to issue its request for additional information by January 20, 2006, issue its draft safety evaluation by July 20, 2006, and estimates that the review will require approximately 200 staff hours including project management time. The review schedule milestones and estimated review costs were discussed and agreed upon in a telephone conference between Brett Schulz of your staff and the NRC staff on October 20, 2005.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that TRs are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, NRC staff hours will be billed accordingly.

Sincerely,

/RA/

Herbert N. Berkow, Director
Project Directorate IV
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

Project No. 712
