Two wks ago, the green ticket was extended to April 30, 2004. However, given the recent turn of events (the Jeffords/Leahy letter and the 3/31 meeting), we think it should be given a higher priority than that. We'll leave the due-date alone, but I've suggested we target April 16, 2004, which would be one month from the date of their initial request.

 I do not have the GT due date but it is a high priority issue.

Thanks - Allen

 Is there a timeframe to issue it?

 We have a framework that was put into a D-note but need to draft the specific response.

Thanks - Allen

 Gentlemen;

What's the latest on an actual reply to the board's request? Thanks.

Scott
