RESPONSE TO A REQUEST OF ADDITIONAL INFORMATION
FEBRUARY 25, 2002 ORDER SECTION B.5.b

On February 25, 2005 the NRC issued *NRC Staff Guidance for Use in Achieving Satisfactory Compliance with February 25, 2002, Order Section B.5.b*, which requested licensees to provide a detailed response describing site-specific plans for addressing various considerations in the guidance and an implementation schedule by May 31, 2005. Implementation was to be complete by August 31, 2005. Kewaunee Power Station (KPS) responded in a May 31, 2005 letter (Serial No. NRC-05-064).

Based on the NRC's review of KPS's May 31, 2005 submittal, the NRC informally requested additional information. Attached is KPS's response to those questions. Commitments associated with the NRC's February 25, 2005 guidance were the mitigating strategies documented in KPS's May 31, 2005 letter. The attached responses contain additional information only and, as such, no new commitments are made in this submittal. Some of these answers were also discussed in a conference call with the NRC on September 16, 2005.

If you have any questions, please contact Ms. Margaret Earle at (804) 273-2768.

Very truly yours,
