

Tribal Participation in the High-Level Waste Repository Process

*Francis “Chip” Cameron
Office of General Counsel*

*Margie Janney
Atomic Safety & Licensing Board Panel*

Presentation Objectives

- *NRC's roles, responsibilities, policies, and outreach regarding Tribal Governments*
- *Regulatory framework of and participation in the Yucca Mountain proceeding*
- *Role of the Licensing Support Network (LSN)*

Commission Roles and Responsibilities

- *Protection of public health and safety and the environment*
- *Function as independent regulatory agency*
- *Licensing, regulation, inspection and enforcement functions*
- *Adjudicatory function*
- *Communication*

NRC's Native American Policies

- *Recognize the importance of government-to-government relationship with Tribal Governments*
- *Follow the intent and principles in Executive Orders and Executive Memoranda on Federal agency relationships with Tribal Governments*
- *Communicate through the Office of State and Tribal Programs*

Goals for Tribal Communication

- *Provide clear, accurate, timely, and continuing information about Commission activities and decision-making processes*
- *Improve access to information*
- *Listen to, understand, and consider Tribal concerns*

Regulatory Framework

- *Nuclear Waste Policy Act of 1982*
 - *Role of DOE, EPA, and NRC*
 - *Milestones for Yucca Mountain decisions*

NRC's High-Level Waste Outreach

- *NRC high-level waste public participation program*
- *Specific workshops exclusively for Tribal Governments*

Participation in the Yucca Mountain Proceeding

- *Hearings held before the Atomic Safety and Licensing Boards*
- *Participation as a party*
- *Participation as an interested governmental participant*
- *LSN provides access to Yucca Mountain information*

Functions of the Licensing Support Network (LSN)

- *LSN primary mission -- support scientific and legal teams of the parties to the proceeding*
- *Responds to Congressional mandate for three-year decision*
- *Access to all parties' relevant documents*

Purposes of the LSN

- *Provides documents in electronic format*
- *Furnishes search engine, not a database*
- *Points to participants' web servers*
- *Includes bibliographic headers, searchable full text, and some images*

Availability of the LSN

- *Located at www.lsnnet.gov*
- *Available through Internet access*
- *Access through dial-up will take longer*
- *Most county libraries have Internet access*
 - *Training for librarians provided at conferences*
- *Customized training is available*

Licensing Support Network

Welcome to the Licensing Support Network (LSN) help section. To assist you in finding your help area of interest, this help section has been broken into topical areas (see links on the left side of this page). The help pages have been written as concise as possible with available links within each page (where applicable) to allow you to obtain more detailed information. In addition, some of these web pages use examples (e.g., screen shots) as an aid to understanding how a particular function works (e.g., advanced search). If you are unable to find the help you are looking for or have a suggestion on how we can improve this help section, please use the "comments and suggestions" e-mail link at the bottom of this page.

The Licensing Support Network (LSN) World Wide Web portal has been developed to make documentary material and other pertinent information available electronically to parties, potential parties, and interested governmental participants to the proceeding for a license to receive and possess high-level nuclear waste at a geologic repository.

The documents for search and retrieval on the LSN have been made available by parties to the proceeding. Parties to the proceeding include, but are not limited to, The Department of Energy (DOE), The Nuclear Regulatory Commission (NRC), and Nye County Nevada. When a result is returned from a query, the "Source" is identified by a three letter code (e.g., NRC, DOE, NYE).

Because the LSN provides access to information from multiple sources, there are multiple formats for the documents and some require special viewers. Please see the [File Viewers \(plug-ins\)](#) help page for more information.

For additional help sources you might try:

- The LSN Web Based Lessons
- Consult with an LSN "expert" within your organization

Advanced Search Page Summary

The LSN Advanced Search page allows users to fine-tune queries against the LSN knowledge base repository. The search page utilizes four (4) type of input fields:

- [Keyword-based fields](#)
- [Date Range-based fields](#)
- [Source Filter-based fields](#)
- [Conceptual-based fields](#)

Entering values in multiple fields has a cumulative effect, i.e., entering a title and a version indicates that only records that successfully match both criteria will be displayed in the results list.

The following table lists each of the Advanced Search form fields. Clicking a field name will provide further information on the field content, while clicking the field type link will provide further information on how to use the type of field input.

Field	Field Type
Title	Keyword
Dates	Date Range
Document Number	Keyword
Document Type	Keyword
Author Name	Keyword
Author Organization	Keyword
Addressee Name	Keyword
Addressee Organization	Keyword
Related Record Number	Keyword
Related Record Code	Keyword
