Darren J. LaClair  
Radiation Safety Officer  
Newaygo County Road Commission  
935 One Mile Road  
White Cloud, MI 49349

Dear Mr. LaClair:

It has come to our attention that Amendment No. 01, to your NRC Material License No. 21-26667-01, issued on October 6, 2005, failed to update the expiration date, in Item 4. of your license, to September 30, 2005, based on a letter dated May 6, 1996, sent to Newaygo County Road Commission by our Office of Nuclear Materials Safety and Safeguards in Washington, D.C. That letter granted a five year extension to your license expiration date, extending it to September 30, 2005. Enclosed is a corrected copy of your current license, License Amendment No. 01, which references the correct expiration date of your license as September 30, 2005. Please note that your license is considered as being in timely renewal status, based on your letter dated August 29, 2005, and renewal application dated October 11, 2005. We apologize for any inconvenience this oversight may have caused you.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability.

Sincerely,

A handwritten signature in cursive script that reads "Loren J. Hueter".
