We are requesting that you provide us with an E-mail address to be able to provide this information to you in a more expedited fashion. We will not publish your E-mail address in the Federal Register, but will have it available to provide you information in a more timely fashion than the regular mail service.

Also enclosed is a copy of NUREG-0794, "Protection of Unclassified Safeguards Information," which is intended to assist persons who possess Safeguards Information in establishing an information protection system that satisfies the specific requirements of Section 73.21 of Part 73 (Enclosure 2). A companion card entitled "Minimum Requirements for Handling Classified and Sensitive Unclassified Information," is also enclosed for your quick reference (Enclosure 3).

I have also enclosed a copy of the present list of Governors' designees, containing your address and telephone number (Enclosure 4). If any information on this list is inaccurate, please send your corrections to the Office of State and Tribal Programs. If we do not receive a response **by May 13, 2005**, we will assume the information shown on the list is correct. The list of Governors' designees is required to be published in the Federal Register on or about June 30, 2005.

In the aftermath of the events of September 11, 2001, we have recognized the importance of being able to communicate information to States quickly. The Office of State and Tribal Programs has had an E-mail distribution system to provide information to the Governor-appointed State Liaison Officers and State Radiation Control Program Directors for several years. We would like to create a similar dedicated list server for Governors' designees in order to provide you with non-safeguards information electronically. We are requesting that you provide us with an E-mail address to be able to provide this information to you in a more expedited fashion. We will not publish your E-mail address in the Federal Register, but will have it available to provide you information in a more timely fashion than the regular mail service.
