Department of Homeland Security  
1300 Pennsylvania Avenue, NW  
Room 2.2.C.  
Washington, DC 20229

SUBJECT: U. S. CUSTOMS & BORDER PROTECTION BUREAU, DEPARTMENT OF  
HOMELAND SECURITY, EXCLUSIVE FEDERAL JURISDICTION AT  
LICENSEE'S FACILITIES

Dear Mr. McMahan:

On June 21, 2005, during a visit to your facilities at the Port of Baltimore, MD, I discussed with Mr. Richard Whitman of your staff the activities of your contractors who service and perform other activities associated with VACIS units possessed by Customs and Border Protection at facilities located in Agreement States. From these discussions, it is my understanding that all repairs of VACIS devices, and their use in training, even if conducted by outside contractors, are performed under the above listed license. Many of your VACIS units are used in Agreement States. NRC does not have jurisdiction over radioactive material in such states unless the location is under exclusive federal jurisdiction or the activities are conducted by a federal entity such as Customs and Border Protection. Part of my responsibility is to assure that all such activities are conducted safely and are properly regulated and controlled. Conduct of the activities under the Customs and Border Protection NRC license assures appropriate regulation and control. It would be helpful if you would confirm my understanding in writing.

We appreciate your cooperation with us. Please call me at (610) 337-5252 if you have any questions or wish to discuss this matter.

Sincerely,

***Original signed by John D. Kinneman***
