Response to Request for Additional Information Regarding Response to NRC Guidance Regarding Mitigation Strategies

Nuclear Management Company, LLC (NMC) submitted a response to NRC Guidance Regarding Mitigation Strategies for the Point Beach Nuclear Plant (PBNP) on May 31, 2005.

On August 25, 2005, the Nuclear Regulatory Commission (NRC) sent, via electronic mail, a request for additional information (RAI) related to the PBNP submittal. The electronic request required that a teleconference be scheduled to discuss the RAI questions. The teleconference between NRC and PBNP was conducted on September 14, 2005. A verbally communicated due date of 30 days for the response to the RAI was requested by NRC Staff. Subsequently, Edward J. Weinkam, NMC, received approval from Robert Gramm and Michael Webb, NRC, that each NMC site will provide their responses to the RAI within 45 days from the date of the related conference calls.

Enclosure 1 contains the PBNP response.
