SUMMARY

We have reviewed your letter dated 8/1/05, requesting an amendment to your byproduct materials license and find that we need additional information as follows:

1. Dr. Sewall needs to show he has received 80 hrs. of didactic training required by 35.932(e) in therapy-oriented applications. Please check to see if he has had this training. Also, Part I, section 5 on his preceptor forms is blank.
- 10/31/05 - Paul Elliott replied that Dr. Sewall has not had the required didactic training. OK to void application at this time.

(Dr. Fearahn was acceptable as a preceptor as he was authorized for 35.300 use in 2002 on Am. 33 to this license.)

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
