SUBJECT: CLINTON POWER STATION, UNIT 1 - PROJECT MANAGER ASSIGNMENT

Dear Mr. Crane:

The Office of Nuclear Reactor Regulation (NRR) has been reorganized to support anticipated new-reactor licensing, risk-informed regulation, and generally improve the effectiveness and efficiency of NRR's programs and processes. The new organization became effective on October 31, 2005.

The previous five large divisions in NRR have been expanded to nine smaller divisions. Each division is overseen by a division director and one or two deputy directors. The Division of Licensing Project Management has now been designated as the Division of Operating Reactor Licensing (DORL) and focuses primarily on licensing activities. Generic and programmatic issues are now managed by the Division of Policy and Rulemaking. In the new DORL, the first-line supervisors, Section Chiefs, have been redesignated as Branch Chiefs.

In the new DORL, there is no change to the Project Manager (PM) assignment for your facility. Mr. Kahtan N. Jabbour and I continue to be the PM and Branch Chief, respectively, for your facility.

Sincerely,

/RA by G.Dick for/

Gene Y. Suh, Chief
Plant Licensing Branch III-2
Division of Operating Reactor Licensing
