Thanks for the clarification.

Chris,

Just want to make sure everyone has a clear understanding of the present situation. Entergy called me this morning and requested a conference call with Tom. They said the purpose of the call would be to discuss their proposed resolution of the comments Tom provided in a conference call on 9/19/05 regarding EPU Supplement 33 (dated 9/14/05). I told them that the NRR staff could not support a conference call at this time since we are concentrating on completing all SE inputs by 9/30/05. I told them that our present strategy was to either have open items in the SE or propose license conditions if feasible. Bottom line - there is no conference call scheduled.

thanks,

Rick
