Gentlemen:

In the Matter of)
Tennessee Valley Authority)

Docket No. 50-390

WATTS BAR NUCLEAR PLANT (WBN) UNIT 1 - SECURITY, TRAINING AND QUALIFICATION PLAN, AND SAFEGUARDS CONTINGENCY PLAN, REVISION 1

Pursuant to 10 CFR 50.54(p), this letter provides Revision 1 of the Security, Training and Qualification Plan, and Safeguards Contingency Plan which supersedes Revision 0 submitted on October 22, 2004 as supplemented by a submittal dated October 26, 2004 in response to the NRC Order EA-03-086, Design Basis Threat. Revision 1 of the plan was effective August 31, 2005.

TVA is submitting this revision to incorporate changes recommended by NRC based on resolution of Security Frequently Asked Questions (SFAQ) 05-03, Armed Responders, SFAQ 04-09, Vehicle Barriers System Compensatory Measures, and SFAQ 04-04, Channeling Barriers Compensatory Measures. In addition, Appendix C, pages C-42 and C-48 have been revised to clarify the definition of delay barrier system. TVA has evaluated these changes and does not consider these revisions to decrease the overall effectiveness of the Security Plan.

The Enclosure to this response contains Safeguards Information as defined in 10 CFR 73.21. TVA therefore requests that the Enclosure be withheld from public disclosure. The information is being sent by certified mail and the signed receipt will signify that NRC has received this information.
