SUBJECT: HOPE CREEK GENERATING STATION, PROJECT MANAGER ASSIGNMENT

Dear Mr. Levis:

The Office of Nuclear Reactor Regulation (NRR) has been reorganized to support anticipated new-reactor licensing, risk-informed regulation, and to generally improve the effectiveness and efficiency of NRR's programs and processes. The new organization became effective on October 31, 2005.

The five divisions have been expanded to nine smaller divisions. Each division will be headed by a director and one or two deputy directors. The Division of Licensing Project Management (DLPM) has been renamed the Division of Operating Reactor Licensing (DORL) and will focus, primarily, on licensing activities. The Director of DORL is Catherine Haney. Ms. Haney's Deputy Directors are Edwin M. Hackett and Cornelius F. Holden. In the new DORL, the current first-line supervisors, Section Chiefs, have been re-designated as Branch Chiefs.

The Licensing Project Manager for your facility is Stewart Bailey. Mr. Bailey may be contacted at (301) 415-1321 or via email at snb@nrc.gov. I have been assigned as the Branch Chief for your facility. I can be reached at (301) 415-1669 or via email at [dj@nrc.gov](mailto:djr@nrc.gov). If you have any questions about the reorganization, please do not hesitate to contact me.

Sincerely,

/RA/
