NEW NRC RESIDENT INSPECTOR ASSIGNED TO INDIAN POINT 2 NUCLEAR PLANT

Nuclear Regulatory Commission officials in King of Prussia, Pa., have assigned Gregory T. Bowman as the new resident inspector at Indian Point 2 in Buchanan, N.Y. He joins NRC Senior Resident Inspector Mark Cox at Unit 2. Two resident inspectors are also assigned to Indian Point 3: Senior Resident Inspector Tom Hipschman and Resident Inspector Brian Wittick. Both Indian Point units are operated by Entergy Nuclear.

“Greg Bowman’s experience and commitment to safety will help the NRC ensure that Indian Point continues to conduct operations with the highest safety standards to protect public health and safety,” said NRC Region I Administrator Samuel J. Collins.

Bowman joined the NRC in 2002 as a reactor inspector in the Regional Office. Prior to joining the agency, he worked at the Bechtel-Bettis Atomic Power Laboratory in Charleston, SC., as a training supervisor.

Bowman is a graduate of the University of Virginia, where he earned a bachelor’s degree in chemical engineering. He also completed the U.S. Navy’s nuclear power school.

Each U.S. commercial nuclear site has at least two NRC resident inspectors. They serve as the agency's eyes and ears at the facility, conducting inspections, monitoring major work projects and interacting with plant workers and the public.

The Indian Point resident inspectors can be reached at 914/739-9360.
