

November 10, 2005

Mr. Robert E. Owen, Chief
Bureau of Radiation Protection
Ohio Department of Health
P.O. Box 118
Columbus, OH 43216-0118

Dear Mr. Owen:

We have reviewed the Ohio proposed Order and corresponding license condition to implement increased controls for certain licensees that possess certain radioactive materials in quantities of concern, received by our office on November 7, 2005. This Order and corresponding license condition was reviewed by comparison to the equivalent NRC requirements that were transmitted from this office on September 2, 2005. We discussed our review of the Order and corresponding license condition with Mr. Michael Snee on November 7, 2005.

We have determined that the proposed Ohio Order and corresponding license condition, if issued without significant change, would meet the compatibility category 'B' designation in NRC Order EA-05-090.

We appreciate receiving the final Order and corresponding license condition issued to effected Ohio licensees.

The SRS Data Sheet summarizes our knowledge of the status of other Ohio regulations and legal binding requirements, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, will be posted on the STP website:
<http://www.hrsd.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the review, the compatibility categories, or any of the NRC requirements used in the review, please contact Mr. Andrew Mauer of my staff at 301-415-3962 or e-mail: anm@nrc.gov.

Sincerely,
