THE YUCCA MOUNTAIN LICENSE APPLICATION REVIEW BY NUCLEAR
REGULATORY COMMISSION STAFF

Dear Dr. Ryan:

I am responding to your letter, dated October 27, 2005, in which you provided observations on the U.S. Nuclear Regulatory Commission (NRC) staff's planning activities regarding a license application review.

As noted in your letter, the Division of High-Level Waste Repository Safety has led a planning effort, for managing scope, schedule, and resources, emphasizing communications and risk management. The planning effort is important to ensure that the primary objectives of the program are met, performance measures for monitoring and assessing plan implementation are identified, and a clear strategy for managing the review is maintained.

The NRC staff appreciates the Committee's observations and interest in this area.

Sincerely,

/RA/
