

November 15, 2005

Mr. David B. Edwards, Plant Manager
Honeywell Specialty Chemical
P.O. Box 430
Metropolis, IL 62960

SUBJECT: CLOSING OF TAC LU0093, AND SUSPENSION OF THE LICENSING
RENEWAL TECHNICAL REVIEW, PENDING RECEIPT OF REQUEST FOR
ADDITIONAL INFORMATION RESPONSE

Dear Mr. Edwards:

The U.S. Nuclear Regulatory Commission (NRC) received word in a phone call from Mr. Darren Mays, to the NRC Project Manager, Michael Raddatz, on November 4, 2005 that the completed response to the Request for Additional Information (RAI) dated June 27, 2005 would not be available until November 18, 2005. This date puts the schedule for the staff behind to a point where we must administratively suspend further action on this review until the complete response is received. We are closing Technical Assignment Control (TAC) LU0093. As soon as the response is received, a new TAC Number will be issued.

Please contact Mr. Michael Raddatz, the NRC Project Manager for the Honeywell Metropolis Works, at (301) 415-6334 or by e-mail at mgr@nrc.gov if you have any questions concerning this matter.

In accordance with 10 CFR 2.390 of the NRC's 'Rules of Practice,' a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document management system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams/web-based.html> (the Public Electronic Reading Room).

Sincerely,

/RA/

Myron Fliegel, Acting Section Chief
Uranium Processing Section
Fuel Cycle Facilities Branch
Division of Fuel Cycle Safety
and Safeguards
Office of Nuclear Material Safety
and Safeguards

Docket No.: 40-3392
License No.: SUB-526
