Dear Ms. Lanzisera,

I have been asked to explain the relationship between Centra Health and the Surgery Center of Lynchburg, and to provide assurance that Centra Health would provide the necessary oversight of the materials at the Surgery Center. The Surgery Center of Lynchburg is a for profit stock corporation. Centra Health owns 50% of the stock, and the remainder is owned by investor surgeons. As a Senior Vice President of Centra Health, I sit on the Management Board of the Surgery Center. Centra Health will oversee the safe use of radioactive materials at the Surgery Center, according to the pertinent NRC regulations, and will perform the necessary decommissioning procedures when necessary. Should you need any further information, please feel free to contact me. I understand that you also require the signature of the physician representative, acknowledging the accuracy of the above statements. Please find below the signature of Dr. Timothy Courville, President of the Surgery Center Board.

Sincerely,

Thomas C. Jividen
Sr. Vice President

Timothy Courville, M.D.
President, Surgery Center of Lynchburg
