Concern 1:

You asserted that you were being harassed for raising concerns regarding your selection to be on a call out list for the "D" team Transient Assessment Response Plan (TARP) weeks. You also asserted that you were not adequately qualified to participate on the TARP Team, and that your supervisor assigned you to the call out list in spite of your objections.

Response to Concern 1:

On October 11, 2002, the NRC Office of Investigations (OI) contacted you to schedule a formal interview. In this initial discussion, you informed OI that you had submitted your concern to the PSEG Nuclear Employee Concerns Program (ECP) and that you would prefer to give this licensee program an opportunity to address your concern. As such, you declined to be interviewed. Thus, you are advised that the NRC can take no further action on your allegation at this time. If you would like to reinstate action on your allegation, please contact the NRC within 30 days of the date of this letter.
