Reply to a Notice of Violation

Dear Mr Dwyer,

I am in receipt of your letter dated 12 October 2005 detailing the violation in our procedure.

Due to a staff change, instructions were not given to new personnel concerning the affixing of a notice, copies of which are attached, to invoices pertaining to watches serviced or repaired in our workshops, with tritium hands and or dials.

New personnel have now been trained in the identification of watches using tritium.

All new watches now manufactured by Patek Philippe, Geneva, feature Superluminova, a non-radioactive material.

In future, continuing on the job training will ensure that there are no future violations.

As of the date of this letter, all invoices for watches containing tritium carry a copy of the attached label.

I trust this information is sufficient for your needs, but please do not hesitate to contact me if you need additional information.

Sincerely,

A handwritten signature in black ink, appearing to read 'David Jarrett', with a long horizontal flourish extending to the right.

David Jarrett
Radiation Safety Officer.

Encl.
