Subject: Clarification on Concern regarding sending Hematite Waste back to Hematite

Joe,

I want to clarify our concern about Westinghouse sending Hematite waste back to Hematite. It is not just HEU material- it is any enriched uranium material. Therefore, I will suggest to Region III to consider looking at Westinghouse's criticality procedures in addition to Hematite's waste management and radiological control procedures.

Sincerely,

Amy M. Snyder, Senior Project Manager
U.S. Nuclear Regulatory Commission
Office of Nuclear Material Safety and Safeguards
Division of Waste Management and Environmental Protection
Materials Decommissioning Section
