## Message Body:

I live in the West Valley (Glendale). I am concerned **with the** recent shut down, if you **would answer a few** --- questions it **may** set my mind at ease.

What caused the 2 reactor shut down?

Are the NRC **overreacting?**

How long until **the** plant comes back online? (**are we** talking about months or years)

Are employees being paid during shut **down?**

**Was** it a break down in the cooling system, a **flaw in design**, or another problem that caused the shut down?

Why did the NRC wait until now?

What is the mood among the management at the plant (flustered, peeved, womed, other)?

Why the lack of info to the public?

Thanks

**Dan** Frenette
