

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

October 21, 2005

Certification Board of Nuclear Cardiology  
ATTN: Manuel D. Cerqueira, M.D.  
President  
19562 Clubhouse Road  
Montgomery Village, MD 20886

SUBJECT: RECOGNITION OF BOARDS

Dear Dr. Cerqueira:

I am writing in response to your August 4, 2005, August 30, 2005, and October 14, 2005, letters seeking recognition of the Certification Board of Nuclear Cardiology (CBNC) certification process by the U.S. Nuclear Regulatory Commission (NRC).

NRC staff reviewed CBNC's certification process for physicians residing in the United States and determined that, based on your October 14, 2005, letter, it meets the applicable requirements in 10 CFR 35.290(a) for NRC. Accordingly, CBNC will continue to be listed on NRC's web site for Part 35 matters at <http://www.nrc.gov/materials/miau/med-use-toolkit.html> with a recognition date of October 29, 2000, and a link to an example of the Certificate issued to a physician residing in the United States.

Please notify the NRC, via letter, six months in advance of CBNC plans for becoming inactive or disbanding, as well as of changes to certification procedures that would affect the recognition of CBNC's certification process under the requirements of 10 CFR 290(a).

For further information or for questions, please contact Mr. Mohammad Saba of my staff (301/415-7608, [mss@nrc.gov](mailto:mss@nrc.gov)).

A handwritten signature in black ink, appearing to read "Tom H. Essig", is positioned above the typed name.

Thomas H. Essig, Chief  
Materials Safety and Inspection Branch  
Division of Industrial and  
Medical Nuclear Safety  
Office of Nuclear Material Safety  
and Safeguards
