Attn: John Kinneman, Chief
Nuclear Material Safety
Section B

Gentlemen:

Westinghouse Electric Corporation (WEC) hereby requests release of Buildings 1-6, the garage, and property on the west side of Arlington Avenue at 1 Westinghouse Plaza, Bloomfield, NJ. The NRC license number for this facility is ~~SMB-1524~~ **SMB-1527 gmlw**

These above areas have been remediated, surveyed, and meet the NRC Unrestricted Release Guidelines. The final confirmatory survey was conducted by Canberra Nuclear Service Division who have maintained on-site monitoring capabilities during the remediation project. Attached are copies of their survey report. Please let me know when a NRC confirmatory survey can be scheduled.

As we discussed with Mr. Frank Costello from your office, remediation will continue in the properties on the east side of Arlington Avenue, i.e., Buildings 7-9, and a final survey for these areas will be completed later this year.

If you have any questions, please call me on 412/642-3880.
