Dear Mr. Bowman:

On October 1, 1995 Region I reorganized to develop a more efficient structure and to reduce the layers of management in the office. As a result of that reorganization, Ronald R. Bellamy, Ph.D. has been assigned as Chief of the newly formed Decommissioning and Laboratory Branch. He will have management responsibility for the Westinghouse Bloomfield, New Jersey site. Mark Roberts will continue as project manager. You may contact Dr. Bellamy at (610) 337-5200 and the project manager at (610) 337-5094.

Your cooperation with me during my time as Chief of the Site Decommissioning Section is appreciated. I will assure that Dr. Bellamy is fully informed regarding the status of your project as I assume my new duties as Chief of the Nuclear Materials Safety Branch 2 (Research & Development, Academic).

Sincerely,
