Westinghouse Electric Company,
a division of CBS Corporation

Energy Systems

Box 355
Pittsburgh Pennsylvania 15230-0355

RA-97-097

December 22, 1997

Dr. Carl J. Paperiello
Director, Office of Nuclear Material Safety and Safeguards
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

Noted Copy: Mr. Charles J. Haughney, Acting Director
Spent Fuel Projects Office

Subject: Application For Amendments to Westinghouse Quality Assurance
Program Approvals and Certificates of Compliance

References:

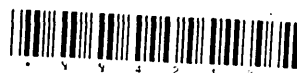

- 1) Westinghouse letter dated August 18, 1997 from Charles W. Pryor, Jr. to Dr. Carl J. Paperiello, USNRC
- 2) Westinghouse letter dated December 18, 1997 from A. J. Nardi to Dr. Carl J. Paperiello, USNRC

Dear Dr. Paperiello:

The Westinghouse Electric Company, a division of CBS Corporation, hereby submits this application for a license amendment to the program approvals and certificates of compliance listed as "Westinghouse Quality Assurance Program Approvals and Certificates of Compliance" on the attached Exhibit A to change the name of the Licensee from "Westinghouse Electric Corporation" to "Westinghouse Electric Company, a division of CBS Corporation". No other revisions to the program approvals and certificates of compliance are requested.

On December 1, 1997 the Westinghouse Electric Corporation changed it's name to the CBS Corporation. The nuclear businesses of CBS Corporation that operate under the certificates of compliance and approvals noted above remain intact as a continuing operating division of the re-named corporate entity. These nuclear businesses operate and do business under the name "Westinghouse Electric Company, a division of CBS Corporation". The Westinghouse Electric Company division is not separately incorporated. In addition, this corporate name change does not involve any change in the management, organization, location, facilities, equipment, or procedures related to or personnel responsible for the licensed activities of the licenses covered by this request. All existing commitments, obligations, and representations remain in effect.

By Reference Number 1, Westinghouse had previously requested the USNRC to issue a license amendment that would reflect a separation of the businesses of the Corporation into a broadcasting group and an Industrial group. That application was formally withdrawn by Reference Number 2 as that transaction will not occur.

Since the only change involved in these amendment applications is to change the name of the license holder, no page changes to the application documents are being submitted at this time. The appropriate page revisions to the application documents will be reflected in future license amendment or renewal request as such revisions are made.

A check in the amount of \$1,280 in payment of the fee specified in 10CFR170.31 for this license amendment request is being sent under separate cover because of delays due to the holidays in obtaining a check. If you have any questions concerning this application, please contact me at the above address or by telephone at (412) 374-4652.

Sincerely,

A handwritten signature in cursive script that reads "A. Joseph Nardi".

A. Joseph Nardi, Supervisory Engineer
Regulatory Affairs
Westinghouse Electric Company
