Susan T. Masih
Radiation Safety Officer
Curators of the University of Missouri
The Chancellor
University of Missouri-Kansas City
Administrative Center 5115 Oak Street
Kansas City, MO 64110

Dear Ms. Masih:

Enclosed is Amendment No. 03 to your NRC Material License No. 24-00513-37 in accordance with your request. Please note that the changes made to your license are printed in **bold** font. Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

At this time I deleted former Condition No. 17, as it appeared on Amendment No. 02, because the regulations in 10 CFR 20.1901(b) capture the same authorization. Therefore this Condition has been rendered obsolete.

I also updated Condition Nos. 14.E. and 18. to reflect current NRC policy. Some Conditions have been re-ordered as a result of these changes.

Please note that our correct, current address is shown in the letterhead above as we moved our offices in April 2004. Our address is also found on our website at <http://www.nrc.gov> and we sent a notification postcard to all licensees in April 2004 concerning our move.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in black ink that reads "Colleen Carol Casey". The signature is written in a cursive, flowing style.

Colleen Carol Casey
