Radiation Safety Officer  
Cardiology Institute of Michigan  
1031 Suncrest Drive  
Lapeer, MI 48446

Dear Dr. Brill:

Enclosed is Amendment No. 3 amending your NRC Material License No. 21-32530-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note, based upon the close-out survey results in the letter dated October 24, 2005, we have authorized the release of your facility located at G-3239 Beecher, Road, Ste. G, Flint, Michigan, for unrestricted use.

Also note, as discussed with Laura Luna by telephone on November 9, 2005, we have not authorized Dr. Breece as a second Radiation Safety Officer (RSO). Only one RSO can be designated by a licensee for each license, and that individual is to be identified on the license. Please see "Frequently Asked Questions About Licensing Medical Uses of Byproduct Material Under Revised 10 CFR Part 35", available on our website at <http://www.nrc.gov/materials/miau/med-use-toolkit/faqs-part35.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability."

Sincerely,

A handwritten signature in cursive script that reads "William P. Reichhold".
