Mike, as we discussed today I am sending you a statement representing Battelle's position on when they will submit the required documentation to request license termination.

"It is Battelle's intent to submit the NRC Form 314 and required supporting data to formally request license termination from NRC by April 30, 2006 if not sooner."

If I can be of any further assistance on this matter please contact me.

Thanks,

Joe Jacobsen BCLDP RSO

Mike, per your request I am providing the following statement from Battelle on our intent to complete activities on site here at West Jefferson North Site:

"It is Battelle's intent to complete the shipment of all TRU waste to an off-site receiver facility by 12/31/05. It is also our intention to complete all necessary on-site below grade radioactive contamination removal work in the area of the former JN-1 Facility by 12/31/05. It is possible that either of these activities could experience potential delays from factors outside of Battelle's control, such as adverse weather conditions."

If I can be of any further assistance on this matter please contact me.

Thanks,

Joe Jacobsen BCLDP RSO
