<table style="width: 100%; border: none;"> <tr> <td style="width: 30%; padding: 5px;">Summary:</td> <td style="padding: 5px;"> <p>I called Dr. Weaver to inform her of my review of the documents depicting the facilities and the discussion with James Dwyer, Branch Chief on the requirements concerning Radiation Safety Officers (RSO). The diagrams were accurate in that they showed all of the locations of use within their facilities. The licensee would not be required to submit new facility diagrams. Dr. Weaver wanted documentation in the regulations stating that only one RSO was permitted on a license. I informed her that a Clear Letter would be issued from the Region I Office and that a statement that the regulations indicated an individual is to be named on the license as the RSO not individuals. Also, NUREG-1556, Vol. 9 indicates that there should only be one RSO. Guidance from NRC HQ is that one RSO is to be named but that individuals can act on behalf of the RSO when multiple sites are involved. I thanked Dr. Weaver for her patience in this matter.</p> </td> </tr> </table>			Summary:	<p>I called Dr. Weaver to inform her of my review of the documents depicting the facilities and the discussion with James Dwyer, Branch Chief on the requirements concerning Radiation Safety Officers (RSO).
