

UNITED STATES
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555-0001

December 28, 2005

Dear Invited Guest:

It is our pleasure to invite you or your designee to attend the U.S. Nuclear Regulatory Commission's 18th Annual Regulatory Information Conference (RIC), sponsored by the Office of Nuclear Reactor Regulation (NRR), in conjunction with the Office of Nuclear Regulatory Research (RES). The conference will be held March 7, 8, and 9, 2006, at the Marriott Bethesda North Hotel and Conference Center. The RIC presents an opportunity for managers from the NRC, its regulated utilities and other interested stakeholders, to communicate directly regarding safety initiatives and regulatory issues.

In addition to the many technical sessions, we believe that you will be interested in attending the international session entitled "International Perspectives." The theme of this session is "New Reactor Design Reviews," which will encompass the expected strategies and challenges encountered in regulatory reviews of new nuclear power reactor designs. We encourage you to participate in the discussions following the panel presentations.

Information about the RIC can be found on the NRC website: www.nrc.gov/public-involve/conference-symposia/ric. It will be possible to register online through this website address in early January 2006. The hotel is located just off Route 355 (Rockville Pike) at 5701 Marinelli Road, North Bethesda, Maryland 20852, across the street from Metro's White Flint Station on the Red Line and diagonal to NRC's Headquarters. For reservations please call 301-922-9200 or fax 301-822-9201. It is suggested that, if you wish to stay at the conference hotel, you make a room reservation at your earliest convenience.

If you have any questions or need further information, please contact Dr. Michael Cullingford, NRR on 301-415-1276 or via email: mcc@nrc.gov, or Kirk Foggie, Office of International Programs on 301-415-2238 or via email: kxf@nrc.gov. We look forward to meeting you at the RIC.

Sincerely,

A handwritten signature in black ink, appearing to read "J. E. Dyer", is written above the typed name.

J. E. Dyer, Director
Office of Nuclear Reactor Regulation

A large, stylized handwritten signature in black ink, appearing to read "Janice Dunn Lee", is written above the typed name.

Janice Dunn Lee, Director
Office of International Programs
