<p>Summary: I confirmed that the only thing changed in the company is the company name. I verified that the new proposed users would be authorized for all radionuclides on the license except iodine 125. I asked if the Radiation Safety Officer should be an authorized user. Ms. Varona stated that she (the RSO) should be added as an authorized user. I discussed the need to retain records for decommissioning associated with the areas being released from the restricted area.
