

Enclosure (1)

Hazards Management & Safety Office

Financial Assurance for Decommissioning of  
Facilities used under Source Material License  
Number SUB 238

Statement of Intent

The U.S. Army Materials Technology Laboratory (MTL) hereby declares its intent to assure that sufficient funding will be appropriated and available through the Department of the Army to decommission buildings described in source Material License Number SUB-238 (Expiration date: February 28, 1991). These buildings are listed as follows:

(1) The Depleted Uranium Machine Shop and Special Metals Processing Areas located in Building 312;

(2) The Uranium Melt Facility and the bay area of Building 43;

(3) The storage area located in Building 311 and;

(4) The radioactive waste storage shed (Building 241).

*It is intended, subject to the availability of funds, that*  
~~The~~ funding will be available sufficiently in advance of decommissioning to prevent delay of required actions.

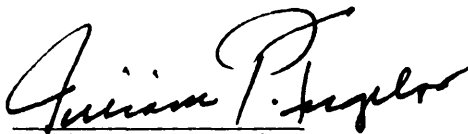

Furthermore, records important to decommissioning will be maintained in the Radiation Protection Office.
