RE: NRC License Amendment Request
License # 37-30120-01

03033422

RECEIVED
JAN 20 2006
12:42

To Whom It May Concern:

Please accept this letter as a request to amend our existing NRC license to include Glenn D. Miller, M.D., as an authorized user. Please find a copy of documentation reflecting his training and experience pertaining to the safe use of Radioactive Materials and clinical experience pertaining to the evaluation of these procedures covered by materials and forms covered by 35.200.

Should you have any questions regarding this application, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Lon Wilson", written over a horizontal line.

AMERICAN MATERIALS

AMERICAN SOCIETY OF
NUCLEAR CARDIOLOGY

American Society of Nuclear Cardiology

This Statement is for Enrollee's Records

Glenn Miller, M.D.

attended a continuing medical education program entitled
"Nuclear Cardiology Board Exam Preparation Course" held
from July 30-31, 2005 in Chicago, IL. The American Society of
Nuclear Cardiology is accredited by the Accreditation Council for
Continuing Medical Education to sponsor continuing medical
education for physicians.

The American Society of Nuclear Cardiology designates this
educational activity for a maximum of 14 category 1 credits toward
the AMA Physician's Recognition Award. Each physician should
claim only those credits that he/she actually spent in the activity.

RE: Glenn D. Miller, MD

Dear Ms. Fitzer

This letter is to confirm the training of Glenn D. Miller, M.D. in Cardiology in our program from July 1, 1993 to June 30, 1995.

Dr. Miller completed his third year of Cardiology training as an Electrophysiology fellow at another institution, and I cannot confirm the training that was provided for him in his third year.

In his two year period, he was provided training in clinical cardiology and laboratory aspects of cardiology. Our program is designed to exceed the minimal requirements for procedural competency in clinical cardiology within the two year time frame. This includes diagnostic catheterization of six months experience with over 300 studies, electrocardiography for the 2 year period averaging approximately 3,000 ECG's per years, read, echocardiograms exceeding 300 in 2 years, stress tests exceeding 150 in 2 years, nuclear cardiology exceeding 80 hours, and clinical electrophysiology for 2 months.

Dr. Miller chose to complete his training in a special program in Electrophysiology for his third year, and it would be necessary to contact his third year training program to determine the extent of training in Electrophysiology.

Dr. Miller reached or exceeded required time and numbers of procedures in the areas mentioned above, and is qualified as a clinical cardiologist to provide bedside care, echocardiograms, and ambulatory ECG's. Dr. Miller completed adequate invasive cardiac catheterization services, but not interventional cardiac catheterization services and his training in Electrophysiology should be confirmed by contact with his other training program.

I would be happy to provide any further information as needed.

Sincerely,

Paul J. Matlier, MD

PJM/smh

This is to acknowledge the receipt of your letter/application dated

1/18/2006, and to inform you that the initial processing which includes an administrative review has been performed.

☒ AMEND. 37-30120-01
There were no administrative omissions. Your application was assigned to a technical reviewer. Please note that the technical review may identify additional omissions or require additional information.

☐ Please provide to this office within 30 days of your receipt of this card
