SUBJECT: NRC PARTICIPATION IN THE BRAIDWOOD AUGUST 2006 EMERGENCY
PREPAREDNESS EXERCISE

Dear Mr. Crane:

The U. S. Nuclear Regulatory Commission routinely participates in licensees' emergency preparedness exercises to ensure that the NRC's Incident Response capabilities are effectively maintained and to provide licensees an opportunity to exercise the interfaces with the NRC that may occur during the response to an incident at their sites. The purpose of this letter is to inform you of our intent to participate in the Braidwood Emergency Preparedness Exercise that is scheduled to occur on August 8, 2006. Currently, we are planning to exercise both our Region III Incident Response Center and our Headquarters Operations Center, and to send an NRC Site Team to your facilities, which will include our resident inspectors. If our scope of participation changes, we will contact your emergency preparedness staff to discuss the changes.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

If you have any questions concerning our participation, please contact our Emergency Response Coordinator, Mr. Ryan Alexander, at (630) 829-9853 or myself at (630) 829-9757.

Sincerely,

/RA/

Kenneth Riemer, Chief
Plant Support Branch
Division of Reactor Safety
