

## TELEPHONE CONVERSATION RECORD

PERSON(S) CALLED: Mike Fix, Commander's Representative

MAILING ADDRESS: Twin Cities Army Ammunition Plant (TCAAP)  
4700 Highway 10, Suite A  
Arden Hills, MN 55112-3928

E-MAIL: [Mike.fix@us.army.mil](mailto:Mike.fix@us.army.mil)

TELEPHONE: (651) 633-2301, ext. 1661

CALLER: George M. McCann, Senior Health Physicist  
Decommissioning Branch  
NRC, Region III, Division of Nuclear Materials Safety

DATE OF CALL: February 2, 2006 (Thursday)

SUBJECT: DISCUSSION REGARDING NRC FINDINGS FOR THE 3M COMPANY'S  
CHARACTERIZATION SURVEYS AT TWIN CITIES ARMY AMMUNITION  
PLANT

Mr. Fix was contacted and advised that the NRC has completed review of the characterization surveys conducted by the 3M Company (a former NRC licensee) around its former radioactive source manufacturing site. Mr. Fix was advised that the NRC had reviewed the former licensee's survey data and made the determination that the areas adjoining the former site meet the NRC's unrestricted release criteria, and that they NRC would not pursue this issue any further. Mr. Fix was advised that he would receive a copy of the letter.

Mr. Fix was asked if he had any questions or concerns. He indicated that there hasn't been much interest, since the public meeting held for the ATK license termination meeting. Mr. Fix was advised that he could contact me anytime should he have any questions. Mr. Fix provided me with his current e-mail address and requested that I send him an e-mail indicating in general our discussion.

Nothing further was discussed.

Docket No. 030-04951 (terminated)  
License No. 22-00057-06 (terminated)
