RE: License 37-20627-01

Dear Ms. Modes:

PQ Corporation requests that Mr. Dave Meads be designated as the Radiation Safety Officer (RSO) for License Number 37-20627-01. Mr. Meads has had hands-on training for fixed gauges in accordance with NUREG 1556, volume 4, appendix G. A copy of his training certificate is attached. Also note that Mr. Meads was previously designated as the RSO for this license (prior to Matt Hamilton).

Mr. Meads is based at PQ's plant in Augusta, Georgia. Mr. Meads will visit each PQ plant on this license (Chester, PA; Jeffersonville, IN; St Louis, MO) once per month to verify compliance with the requirements of this license. In case of emergency at any of these plants, Mr. Meads will also be available to respond if necessary.

The following PQ employees are scheduled to attend a fixed gauge course that meets the requirements of NUREG 1556, volume 4, appendix G in March 2006:

Rich Heisse - St Louis, MO
Mike McKinley - Jeffersonville, IN
Rob Savarese - Chester, PA

After the above individuals have completed their training, we will send a separate written request to update the RSO for this license.

If you have any questions, please call me on my cell phone at (610) 348-0042.

Sincerely,

A handwritten signature in cursive script that reads "Rob Savarese".

Rob Savarese, P.E.
HSE Manager
