<table style="width: 100%; border: none;"> <tr> <td style="width: 30%; vertical-align: top; padding-bottom: 10px;">Summary:</td> <td style="padding-bottom: 10px;"> <p>I spoke to Dr. Graham about the disposition of the Californium-252 and Cesium-137 sources depicted as Items 6.O and Q on Amendment 38 of the license. He stated that he believed that the sources were sent out for disposal but would check the records to make sure.</p> <p>15:00 Dr. Graham called back with information on the sealed sources. He informed me that Item 6.O (Californium-252 sources) were sent out for disposal in May of 2003. The source covered by Item 6.Q (Cesium-137, 500 millicuries by Amersham) was sent out for disposal in 2001. I told him to keep the records of the disposal of the sources in the decommissioning file in case there should be future questions on the matter.</p> <p>15:30 1/27/06 I informed Dr. Graham that the two sealed sources will remain on the license pending the submission of an amendment request with the information showing their proper disposal. The Noank Marine Research Laboratory will remain on the license until the licensee provides information for NRC review showing that the facility has been properly decommissioned. Dr. Graham agreed to start putting together an amendment request to show the proper disposition of the sources and decommissioning of the Noank facility.</p> </td> </tr> </table>			Summary:	<p>I spoke to Dr. Graham about the disposition of the Californium-252 and Cesium-137 sources depicted as Items 6.O and Q on Amendment 38 of the license.
