To Whom It May Concern:

Lucent Technologies technical management has determined that there will be no need in the future for licensed radioactive material that was formerly used under the above licenses. All materials held under SMB-1260 have already been disposed of. Lucent Technologies has initiated the process for proper disposal of the only source held under SNM-203, a PuBe source. It is expected that this disposal will be completed before the end of 2006. Lucent Technologies will retain its remaining licenses and continue to use the sources covered by them, 29-00170-03 and 29-00170-08.

We request instructions in your current requirements for the termination of these two licenses.

If you have questions regarding this request, please contact me at (908) 582-5907.

Sincerely,

Richard Quick,  
Senior Manager - Radiation Safety Officer
