Brian,

Following my discussion with OGC concerning the attached USEC submittal, earlier today I informed Pete Miner of USEC that the first sentence in the license condition on Page 3-3 is not needed as USEC is required to do this under 10 CFR 70.72. This is discussed earlier in the paragraph that contains the license condition. Likewise, the first sentence in the license condition on Page 3-2 is not needed as 10 CFR 70.62(b) requires USEC to keep the ACP's process safety information current.
