Dear Ms. Xu:

This is in response to the point you raised in the February 6, 2006 telephone conversation with our physicist, Mr. Gerald Randall.

The name of our hospital is as indicated on our application, namely, Windham Community Memorial Hospital, Inc. This is simply a name change, and there has been no change of ownership, no change of management, and no change of control of the license.

I trust that this will clarify this issue, and appreciate your continued attention to this matter. Please let me know if any additional information is required.

Sincerely,

Richard Brvenik
