OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

I am writing to you concerning security at nuclear facilities. After 9/11 it is incredible that security has not improved. 9/11 involved attacks from the air, it is unexceptable to exempt air attacks from security at nuclear facilities, also 19 attackers were involved. It is unacceptaable to require protection for a small fraction of that number. I urge you to support the Committee to Bridge the Gap petition for rulemakidng to upgrade reactor security. The NRC proposal does not make any upgrades for nuclear facility security. I find it unacceptable. Making deals in secret with industry & then letting the public comment damages our confidence with public security that you are proposing. Please consider these comments. Respectfully, Eleanore Rembaum
