Dear Ms. Parker:

We received the proposed changes to the Louisiana Administrative Code, Title 33, Part XV, *Radiation Protection*, RP041 attached to the email that you sent to us on February 7, 2009. These regulations correspond to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Parts 20, 31, and 35, and the requirements of the three regulation amendments, RAT IDs: 1999-3, 2001-1 and 2002-2. The comments on proposed regulations addressing these amendments were transmitted to the State of Louisiana in letters dated August 18, 2005, August 26, 2004, June 3, 2004, and July 31, 2003.

Per your discussion with Kathleen Schneider and Sandra Lai on February 9, 2006, we do not routinely conduct a second review on proposed regulations pursuant to the Office of State and Tribal Programs (STP) Procedure SA-201, *Review of State Regulatory Requirements*. As noted in our previous correspondences, when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations should be provided to us for review. As requested in STP Procedure SA-201, please highlight the final changes and provide a copy to STP.

If you have any questions regarding our procedure, please contact me, or Kathleen Schneider at (301) 415-2320 or by e-mail at KXS@NRC.GOV.

Sincerely,

***IRA By KNSchneider For***
